Coat Type Category

Category Master Level

1. Persian & Exotic Shorthairs (Full-Coated Cats)
 - ❖ Examples: Persian, Exotic Shorthair
 - ❖ Coat Characteristics: Persians have long, dense coats, while Exotic Shorthairs have a plush, short coat.
 - ❖ Grooming Focus: For Persians, grooming focuses on volume and fluff, with careful trimming around the face. Exotic Shorthairs require sleek and plush coat presentation.
2. Curly or Rex Cats (Wavy, Curled Coats)
 - ❖ Examples: Devon Rex, Cornish Rex, Selkirk Rex
 - ❖ Coat Characteristics: Unique wavy or curly coats that require specialized grooming to maintain curl definition.
 - ❖ Grooming Focus: Maintaining the natural curls or waves while ensuring the coat looks uniform and soft. Care must be taken not to over-groom and flatten the curls

Category A

1. Forest Cats (Long-Haired, Dense Coats)
 - ❖ Examples: Maine Coon, Norwegian Forest Cat, Siberian
 - ❖ Characteristics: Thick, long coats with a dense undercoat designed for harsh environments.
 - ❖ Grooming Focus: De-shedding and mat prevention, maintaining natural volume while keeping the coat healthy and polished.
2. Plush Cats (Short-to-Medium Dense Coats)
 - ❖ Examples: British Shorthair, Scottish Fold, Minuet (Napoleon), American Bobtail
 - ❖ Coat Characteristics: Dense, plush coats that are soft to the touch, with a “cushiony” appearance.
 - ❖ Grooming Focus: Highlighting the softness and roundness of the coat while maintaining a well-groomed, clean look. Volume control is key, especially in maintaining the coat’s density without making it look too bulky.
3. Hairless or Nearly Hairless Cats**
 - ❖ Examples: Sphynx, Peterbald
 - ❖ Coat Characteristics: Lack of fur, with smooth or slightly fuzzy skin that needs regular care to stay clean and healthy.
 - ❖ Grooming Focus: Skin care is crucial, focusing on cleaning, moisturizing, and ensuring the skin is blemish-free. Wrinkles should be clean and moisturized.

Category B

1. Semi-Long Hair, Fine Silky Coats**
 - ❖ Examples: Turkish Angora, Turkish Van, Balinese
 - ❖ Characteristics: Silky, soft coats that flow naturally, often fine and easy to manage but prone to matting if neglected.
 - ❖ Grooming Focus: Groomers will emphasize the silkiness and shine of the coat, keeping it smooth and free-flowing without knots. The coat should shimmer and remain elegant

2. Slinky & Sleek Cats (Short-Haired, Fine Coats)
 - ❖ Examples: Siamese, Burmese, Bombay, Korat, Russian Blue
 - ❖ Coat Characteristics: Short, fine, and close-lying coats that shine when properly groomed.
 - ❖ Grooming Focus: Emphasis on the natural shine and sleekness of the coat. Every hair must be in place, with no rough patches or stray hairs.

3. Wild-Looking Cats (Short and Long Hair: Spotted, Striped, or Tabby Coats)
 - ❖ Examples: Bengal, Savannah, Ocicat, American Curl, Japanese Bobtail
 - ❖ Coat Characteristics: Exotic coats with distinct patterns like spots, stripes, or rosettes, mimicking their wild ancestors.
 - ❖ Grooming Focus: Enhancing the natural pattern of the coat while keeping it sleek and shiny. Groomers should focus on bringing out the vibrancy and clarity of the coat's markings

4. Semi-Long Hair, Dense Coats
 - ❖ Examples: Ragamuffin, Ragdoll, Birman
 - ❖ Characteristics: Semi-longhair with thick, plush coats that require regular care to avoid matting and tangling.
 - ❖ Grooming Focus: Keeping the coat soft and voluminous without it appearing too heavy. Highlighting the coat's natural density while maintaining smoothness and cleanliness.
